8th Ertl Symposium on

FUndamental to Scale-up Electrochemistry

26-29 June 2024 in Esslingen, Germany

Co-organized by

Universität Stuttgart

Prof. Dr. Gerhard Ertl
Nobel Laureate 2007

Fritz-Haber-Institut der Max-Planck-Gesellschaft Berlin, Germany
"for his studies of chemical processes on solid surfaces"

Introduction

At the beginning of the 21st century our world is facing serious problems with regards to environment, climate, energy conversion, raw materials, water and food. All these global problems are seeking scientific solutions, especially from physical chemistry and electrochemistry, and in this connection analysis and dynamics are of tremendous importance. It is expected that the 8th Ertl symposium will provide a good opportunity in these attempts, and we wish great success to all the people involved in this enterprise.

Abstract Submission by 15 March 2024

150-300 words with only ONE image (figure or photo or table) in WORD file

E-mail submission: ertl@gist.ac.kr

Key Topics

Material Synthesis: Catalyst, Membrane, Gas Diffusion Layer

Ink & Slurry Chemistry

Electrode Coating Technology

in-situ Surface and Interface Analysis

Full Cell Configuration & on-site Monitoring

AI Machine Learning

Themed Issue

Submissions are already open for the Themed Issue (Journal Name tbc) and contributions can be uploaded via the RSC website. The deadline for submission of manuscripts is 31 October 2024. Guest Editor: Jaeyoung Lee (GIST)

Conference Fee & On-line Registration

► Regular participants: 400 EUR

Student participants: 200 EUR

The registration fee includes the Book of Abstracts (pdf file), Tutorial Course, Lunch, Coffee Break, Poster Session F&B, Banquet and **Surprise Gift**.

1) Pre-registration Payment: Bank Transfer until 30 April 2024

Account owner: Universität Stuttgart

Bank: Baden-Württembergische Bank Stuttgart – BW-Bank

2) On-site Payment: in CASH or Credit Card at the registration desk upon arrival.

Conference Venue

Esslingen University of Applied Sciences provides academic training and education in the fields of technology, economics and the social sciences. At Esslingen University, around 6,300 students are enrolled on 31 Bachelor's and 14 Master's degree programmes.

Excellent teaching, combined with high practical relevance, has a high priority at Esslingen. It is no wonder, then, that Esslingen is consistently to be found among the best universities of applied sciences in Germany in numerous national ranking tables.

About Esslingen <https://www.britannica.com/place/Esslingen>

Esslingen, in full Esslingen am Neckar, city, Baden-Württemberg Land (state), southwestern Germany. It lies along the Neckar River, just southeast of Stuttgart. Mentioned in 777 as Cella and in 866 as Hetsilinga, it was chartered about 1219. It was a free imperial city from 1360 to 1802, when it passed to Württemberg, the rulers of which had often threatened it. The centre of a fertile wine-producing and fruit-growing district, the town also has machine and electrical-engineering works tied to the automobile and high-technology sectors of the greater Stuttgart region. Precision instruments and optics are also produced.
